

FOR IMMEDIATE RELEASE

PKWARE® Customer to Speak at Exclusive Forum at RSA Conference 2009

Milwaukee, WI (April 17, 2009) – PKWARE®, the leading provider of cross-platform, end-to-end encryption* security software, today announced their participation at RSA Conference 2009, taking place next week, April 20-24, at the Moscone Center in San Francisco, CA.

PKWARE customer, Julie Boughn, CIO and Director for the Centers for Medicare & Medicaid Services (CMS), will present on the topic of secure data exchange with external partners. SecureZIP PartnerLink by PKWARE has helped CMS achieve major steps towards President Obama's goals for modernizing America's health records system and securely exchanging sensitive information.

CMS is responsible for the sensitive medical data of over 90 million Medicare and Medicaid participants. SecureZIP PartnerLink ensures the security of the data as it is exchanged with hundreds of endpoints, including research labs, universities, and large business partners.

Ms. Boughn will be presenting her case study with panelists from Bank of America and Yahoo at the eFraud Network Forum (eFN), an invitation-only event taking place on Monday, April 20.

Ms. Boughn and Dr. George Haddix, CEO and Chairman for PKWARE, Inc., will also be leading a press conference discussion about the case study. The press conference will be held Monday, April 20 from 5:30 -6:00 p.m. in Press Conference Room #114 of Moscone North at the RSA Conference.

In addition to Boughn's presentations, PKWARE data security experts will be presenting educational sessions for RSA attendees in booth #1849 throughout the show.

About PKWARE

PKWARE, Inc. (<http://www.pkware.com>), a market and technology leader providing data-centric, cross-platform security solutions, is the creator and continuing innovator of the ZIP standard. PKWARE's SecureZIP family of end-to-end encryption products are used by over 30,000 distinct corporate entities to ensure the security and portability of data internally, as well as with partners, across all major platforms. Hundreds of global organizations in financial services, banking, retail, healthcare, government, and manufacturing use PKWARE services daily. PKWARE products provide unmatched scalability, ease of use and deployment, making them the most cost-effective means of securing data and complying with industry regulations. PKWARE, a privately held company, is based in Milwaukee, WI with additional offices in New York and the United Kingdom.

PKWARE, SecureZIP, and PKZIP are registered trademarks of PKWARE, Inc. Trademarks of other companies mentioned appear for identification purposes only and are property of their respective companies.

**End-to-end encryption involves the application of strong encryption at the data point of origin. It protects data wherever it goes and however it gets there, ensuring that the data is not exposed as it moves internally within an organization's network or externally as it is exchanged with partners.*
